2023 End-of-Year Update

Source: Chicago Data Portal
Victims of Homicides and Non-fatal Shootings
Chicago Violence Reduction Dashboard

December 21st, 2023
Safety Gap by Demographics
The safety gap between Chicago’s Black and white residents is shrinking from its high-water mark in 2021.
Despite making up just one-third of Chicago’s population, more than three-quarters of the city’s homicide victims are Black.
The share of homicide victims over age 30 has increased significantly since 2019, from 41% to 53%.
Safety Gap by Geography
In 2023, 150 fewer residents in District 11 were victims of a shooting (fatal and nonfatal) compared to 2022.
The neighborhoods with the highest homicide rates experience approximately 30x more homicides than the neighborhoods with the lowest rates.

Homicides per 100,000 Residents by Highest, Middle, and Lowest Homicide Rate Community Areas, Year-to-Date (1991-2023)

Based on data from January 1st - December 13th
The police districts with the highest homicide rates experience approximately 20x more homicides than the police districts with the lowest rates.
Year-over-Year Crime Counts
Overall homicides have decreased by 12% in the last year.
Non-fatal shootings have decreased by 17% from 2022 to 2023.
Overall violent crime has increased by 13% from 2022 to 2023.
Citywide robberies have increased by 40% in the last year.
